

# SICET Keynote Speaker

## — Dr. Hongbo Song

*Interactive Multimedia Development for Foreign Language Education*

Dr. Hongbo Song is a Professor of English and the Dean of the School of Foreign Languages at Yantai University, Shandong, China. Dr. Song also serves at various academic associations. Dr. Song's recent funded research includes interaction in virtual learning communities, English learners' computer-mediated communication in virtual learning environments, digital portfolios, and multimedia design. His book *Interaction in Online Learning* is a great help to online course instructors. Dr. Song's presentation will review challenges that face foreign language teachers in Chinese universities and colleges. Dr. Song will showcase multimedia courseware developed for Chinese students learning English at Yantai University.
